

-----Very powerful spotlight.

Drawn by a woman who wishes to remain anonymous & colored by Mr. Joseph M DeAndrade on;1-13-1991

On 1-10-1991 at 10:30P.M., a woman (who wishes to remain anonymous) claims to have seen a UFO (drawn above) flying slowly about 50' over some tree's (slower than a plane could, she claims), in Bridgewater. Then it suddenly stopped and tilted itself, hovering even closer to some tree's near High St while it pointed its extremely powerful spotlight on the ground (that the witness claims lit up a large area) as if it were looking for something. Only when it was tilted, was the woman able to see and finally draw (above) and explain what she claimed to see. She claimed that it appeared to be about as large as an average sized airplane, but that it never made any kind of sound at all as it passed by. She claims that it remained hovering in the same tilted position for several seconds with its very powerful spotlight lighting up a large area of the ground that could be even seen by the light shining on the surrounding tree's. Then suddenly she claims that it slowly returned back to its original position, as it left slowly in this same position then suddenly disappeared behind some tree's, and was not seen again that night. She claims it had a huge round green light in the middle with 5 smaller red lights and 4 even smaller yellow lights all around the huge green one.
