 Bridgewater, MA 02324

A woman named Elizabeth informed a vampirologist that she was a 3439-year-old female vampire!!! And her oral memoirs of those 4 centuries were said to be very convincing!!! It's said that a vampire seeks its victims between the hours of midnight and dawn. And that there's a 70% increase in bloodsucking activities during a fullmoon!!!

It's said that there has been a big increase in vampirism and in occult activities in; Denver, Oklahoma City, Pittsburg, Cleveland, Chicago, Miami, Detroit, Boston, Los Angeles, San Francisco and Washington D.C.! It's also been said that there has been a big increase in vampirologists!

In 1985, there were said to be 560 live vampires all over this world!!! But there may not be that many now, because it's also been said that many live vampires have died recently from sucking the blood of people who had AIDS or other deadly disease's!!! Because of all of those vampires that died, it's been said that all of those live vampires will now be seeking people who are a lot more moral and decent, "to be their next victims!!!"

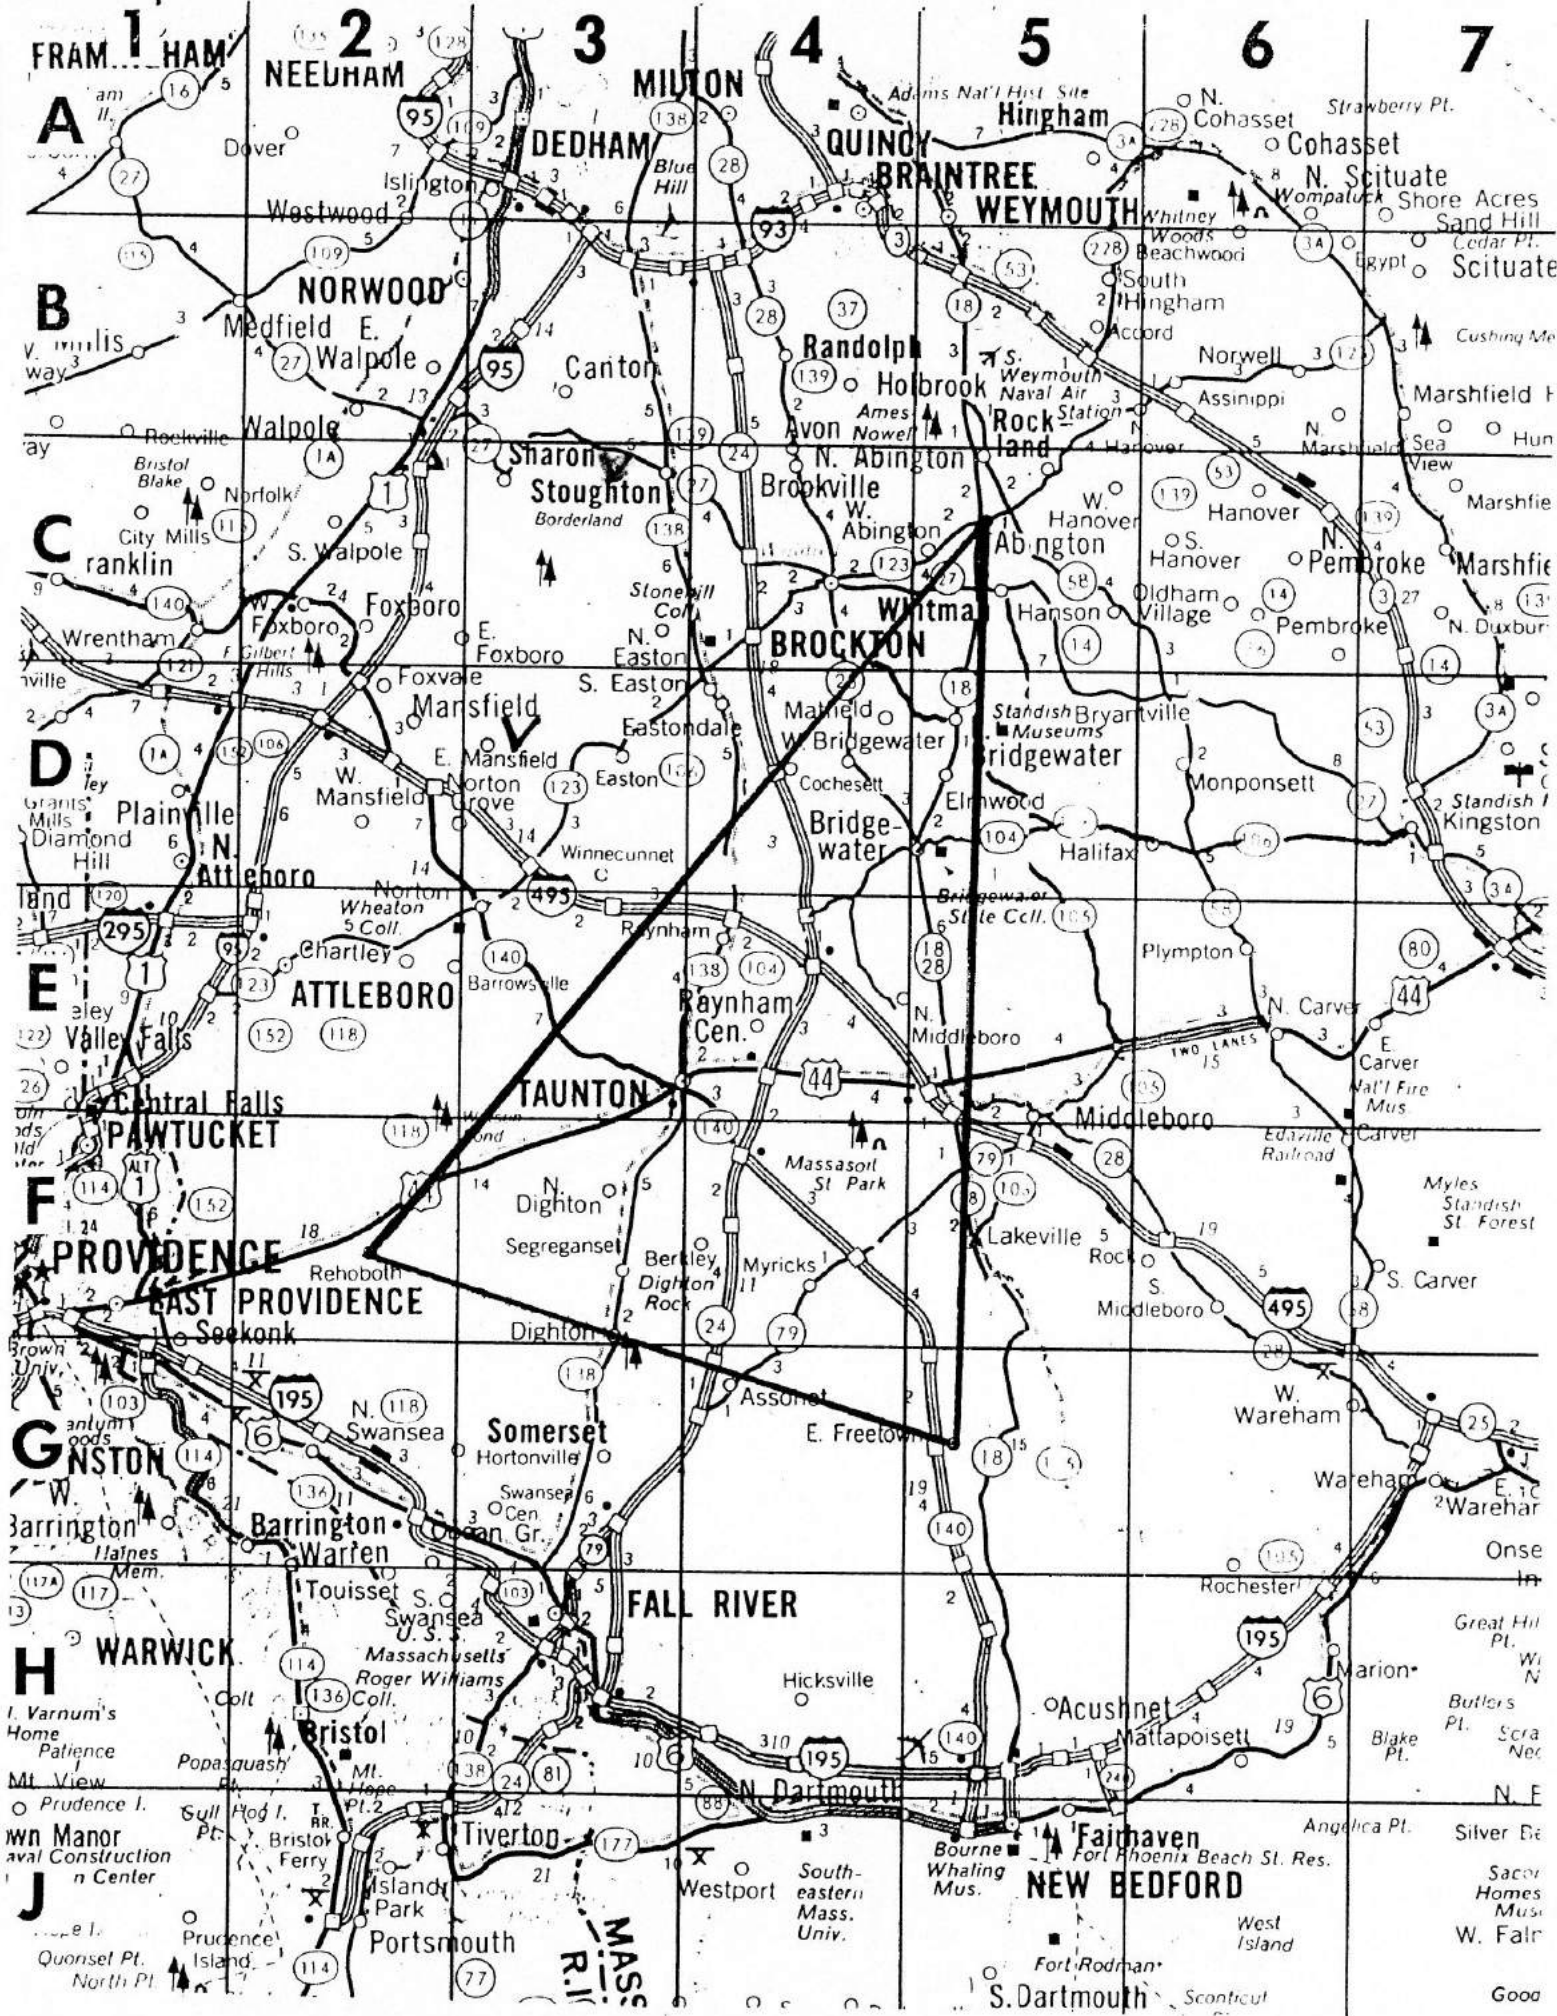

So lock all of those doors and windows in your house, apartment etc, don't go out alone between the hours of midnight and dawn, "especially on a full moon!!!" If you must go out, then you should wear a cross (no less than 1" high) a rosary and a scapular (better if blessed). Before you leave, you should make the sign of the cross with Holy Water or Holy Oil (or both) on your forehead, your neck or another place on your (or someone else's) body that you believe you (or someone else) needs special protection. Also, put a cross (no less than 1" high) on every door of your home, with the biggest crosses on your front and back doors! And finally, (before you go to sleep) don't forget to pray to God! Because I know from experience that God hears our prayers and protects all of his children from evil things. If you don't believe in God, "then now is a very good time to start!!!"

There has been "vampire sightings" in the town of East Mansfield about 30 yrs ago!" Unfortunately no information is available about those sightings at this time.

1998,

In Stoughton, MA, a teenage girl told me that her best friend (another teenage girl that goes to the same school that she does in Stoughton) named Melissa, "is studying to be a vampire!
