The Bridgewater Triangle is located in eastern Massachusetts. It's a triangle shaped area of land that covers about 200 square miles, and includes the towns of; Abington, Rehoboth and Freetown at the angles of this triangle, with Bridgewater, West Bridgewater, East Bridgewater, North Middleboro, Segreganset, Dighton, North Dighton, Berkley, Myricks, Raynham, East Taunton and Taunton within this triangle.

Some people have claimed to see some very strange creatures in this triangle area such as; a huge black prehistoric looking bird "more than 6' tall," with a wingspan of between 8' and 12' long, a big black dog with red eyes, a big black panther, a huge long black snake as wide as a stovepipe and a big strong hairy creature between 7' and 8' tall with long brown hair all over its body and 2 reddish-orange eyes on its face. It's been seen standing, walking and running in an "upright position!" It's been named "Sasquatch" by the native American Indians who've claimed to see it for many centuries. But now it's also been named "Bigfoot" because of its big feet. It is the most often seen and famous creature in this triangle area!" Different kinds of UFO's have also been seen in this triangle area by many people for many years.

Most of the people that I've spoken to, claimed that they've never heard of this triangle area. "Not even those who've claimed to have lived in it all of their life!" They also claimed that they never saw, heard or even sensed anything very strange in it."But some people have claimed that they've sensed, heard and even seen some very big, strange and mysterious things in (and a little bit outside of) this triangle area!"

The most dangerous place in this triangle area is a swamp called the hockomock swamp. "It's where the most strange and mysterious things have occurred, especially at night!!!" Most of the people that I've spoken to claimed that they've heard of this swamp, "except it's bad reputation!" But a few people have also claimed that some people who have entered very deep in this swamp (especially at night) "have never returned!!!" I've also heard that some of those people who returned, had some very interesting (but scary) things to reveal, "and that they never wanted to enter too deep (especially at night) in there again!!!" Some people have told me that they are so afraid of it, "that they don't even want to go near it!" Some people have insisted (very strongly) that they're sure satanic activity has, and is still occurring very deep in this swamp by very evil people!!!" Some people have claimed to hear horrifying screams of pain from deep in this swamp, "that sounded very human to them!!!"
