

This is a drawing of three flying saucers that I saw following an American spacecraft while I was looking through a telescope on a clear afternoon on Oak St, in Bridgewater.

VERY STRANGE UFO SIGHTING By Joseph M DeAndrade

On 11/6/1908, Saturday at 3:10 A.M. in Bridgewater two people claimed to of seen an airballoon with a bright light in it hovering over the Stanley Iron Works as if something inteligent was controlling it! Those two people also claimed that some reliable people also claimed to have seen the same airballoon too. So the press of this state was very busy on that Saturday trying to find airballoons with a bright light in them, and also trying to find a landing place where that airballoon might have landed. "But that airballoon was never found!"
